Valentine's Day- 3-D Hearts

1. Print out one set of hearts on red and the other on purple paper (or other Valentine complimentary colors. You can also simply color them). 2. Cut the hearts out. (Make sure to go only half way on the center line.) 3. Connect the two hearts like the snowflake diagram shows. You may have to add some tape to keep the pieces together. 4. Punch a hole in the top and thread yarn through.
